# NARRATIVE DISCUSSION

# **BASIS OF PRESENTATION**

The Royal Canadian Mint (the "Mint") prepared this report as required by section 131.1 of the *Financial Administration Act*<sup>1</sup> using the standard issued by the Treasury Board of Canada Secretariat. This narrative should be read in conjunction with the unaudited condensed consolidated financial statements.

The Mint prepared these unaudited condensed consolidated financial statements for the 13 weeks ended March 30, 2024 and April 1, 2023 in compliance with International Financial Reporting Standards (IFRS). Although the Mint's year-end of December 31 matches the calendar year-end, the Mint's quarter end dates do not necessarily coincide with calendar year quarters; instead, each of the Mint's quarters contains 13 weeks. In 2024, the first 13 weeks included 90 days compared to 91 days in the first 13 weeks of 2023. Financial results reported in this narrative are presented in Canadian dollars and rounded to the nearest million, unless otherwise noted. The information in this narrative is current to May 23, 2024, unless otherwise noted.

# MATERIALITY

In assessing what information to provide in this narrative, management applies the materiality principle as guidance for disclosure. Management considers information material if its omission or misstatement could reasonably be expected to influence decisions that the primary users make based on the financial information included in this narrative.

# FORWARD LOOKING STATEMENTS

Readers are advised to refer to the cautionary language included at the end of this narrative when reading any forward-looking statements.

#### NON-GAAP FINANCIAL MEASURES

This narrative includes non-GAAP financial measures which are clearly denoted where presented. Non-GAAP financial measures are not standardized under IFRS and might not be comparable to similar financial measures disclosed by other corporations reporting under IFRS.

#### **OVERVIEW OF THE CORE MANDATE AND THE BUSINESS**

The Royal Canadian Mint is a Crown corporation owned solely by the Government of Canada. It is required by the *Royal Canadian Mint Act* to mint coins in anticipation of profit and to carry out other related activities. The Mint aims to be an agile, resilient Crown corporation focused on the future and prepared to act on opportunities to create value for Canada. The Mint has two primary businesses: Circulation and Precious Metals.

#### **Circulation Business**

The Royal Canadian Mint is Canada's national mint and a global leader in circulation coinage and precious metals. As part of its core mandate, the Mint manages the circulation of Canada's coinage from its weekly forecasting and world-class production to eventual retirement. This endto-end responsibility, along with the management of inventories across the nation, enables the Mint to effectively deliver a reliable and inclusive payment option for Canadians. Integrating environmental, social and corporate governance (ESG) as a foundation for its coin lifecycle management practices, the Mint recycles and re-distributes coins which reduces the need to produce more coins and extends the life span and usage of those coins already circulating.

On behalf of the Government of Canada, the Mint operates a Commemorative Coin Program (CCP) to celebrate Canada's history, diversity, culture and values. In addition to its core mandate, the Mint is also responsible for the Alloy Recovery Program (ARP) which removes older-composition Canadian coins from the coin pool system and replaces them with more durable and secure multi-ply plated steel (MPPS) coins.

The Foreign Circulation business produces and supplies finished coins, coin blanks and tokens to customers around the world, including central banks, mints, monetary authorities and finance ministries. The Mint also produces high technology dies for international customers, allowing countries to strike their own coins. These contracts leverage the infrastructure and industry-leading expertise in the Mint's Winnipeg manufacturing facility.

13 weeks ended March 30, 2024 (Unaudited)

#### **Precious Metals Business**

The Bullion Products & Services business provides critical support to the essential Canadian mining and financial sectors through its market-leading precious metal investment coin and bar products, supported by integrated precious metal refining, storage and exchange traded receipts (ETR) capabilities. These products include the Maple Leaf family of gold and silver coins, as well as other precious metal products and services for investment and manufacturing purposes. As a market leader in the industry with bullion coins of the highest quality and security, the Mint is well positioned to capture a leading share of any increase in demand while sustaining volumes during softer markets. The Mint has issued ETRs under its Canadian Gold Reserves (TSX: MNT/MNT.U) and Canadian Silver Reserves (TSX: MNS/MNS.U) programs, which provide retail and institutional investors direct legal title and beneficial ownership in physical bullion held in the custody of the Mint at its facilities on an unallocated basis. These programs contribute to the efficient operation of the Mint's production facilities, including reduced precious metal lease requirements, while generating management fee revenue.

The Numismatics business designs, manufactures and sells collectible coins to a loyal customer base in Canada and around the world. The medals division proudly provides medals to many Canadian public institutions to recognize and celebrate outstanding accomplishments of Canadians. The Mint's global leadership in the art and science of minting is consistently recognized around the world. This recognition is largely earned by innovative technology enhancements, such as glow in the dark paint, selective plating, the Opulence line, hybrid and premium bullion products and the use of vibrant colour that allow the Mint to create unique and compelling products. The Mint sells numismatic products through its outbound sales and e-commerce platforms, and through its boutiques in Ottawa and Winnipeg, as well as through its dealers and partners, both domestically and internationally.

# SIGNIFICANT CORPORATE EVENTS

#### **New Coin Offerings**

# 2024 \$20 Fine Silver Coin – The Royal Canadian Air Force Centennial

The year 2024 marks 100 years since a professional air force was created for the defence of Canadian freedom and sovereignty. To honour the Royal Canadian Air Force (RCAF), a national institution dedicated to our national security, and the generations of personnel who have served it through peace and war, the Mint has launched the 2024 \$20 Fine Silver Coin – The Royal Canadian Air Force Centennial.

# Double-sided Extraordinarily High Relief (EHR) on gold and silver Year of the Dragon coins

The Mint has once again raised the bar in the world by launching its first-ever coins dramatically defining a design in EHR on both their obverse and reverse. The 2024 \$350 Pure Gold Coin and \$50 Fine Silver Coin – Year of the Dragon are the latest innovations to come from the Mint's research and development team.

# Coin commemorating Black History

In launching the latest issue in its ongoing Commemorating Black History fine silver coin series, the Mint is honouring the community of Amber Valley, Alberta, founded in 1910 by African American families from Oklahoma, Texas and other surrounding states. Their inspiring tale of spirit and determination is forever preserved on a beautiful 99.99% pure silver collector coin.

# Launch of New Portal for Refinery Customers

The Mint launched its new Business Refinery Portal, a user-friendly gateway for refinery customers to manage their accounts with the Mint. This successful rollout is the latest milestone in the Mint's business transformation journey to upgrade its business to business (B2B) digital capabilities.

# Environmental, Social and Corporate Governance (ESG) Initiatives

# Task force on climate-related Financial Disclosures (TCFD)

The Mint's inaugural Impact Report, highlighting its ESG strategy, was released alongside the 2023 Annual Report on May 8, 2024. The Impact Report included an important update on the Mint's TCFD disclosures as it prepares for the required TCFD disclosures for 2024.

# Amalgamated Transit Union (ATU) and Public Service Alliance of Canada (PSAC) Union Agreements

In Q1 2024, the Mint concluded its contract negotiations with the Amalgamated Transit Union representing the Mint's Protective Services Officers in Ottawa, as well as with the PSAC representing the Mint's Protective Services Officers in Winnipeg. The renewed collective agreements expire on December 31, 2025.

# National Capital Region's Top Employers (2024)

On February 5, 2024, the Mint was selected as one of the National Capital Region's Top Employers (2024) for the fourth consecutive year. Its investment in the education of the next

#### **OPERATING HIGHLIGHTS AND ANALYSIS OF RESULTS**

To achieve its objectives, the Mint strives to continually improve profitability through prudent financial management and efficient operations. The Mint measures its performance by using metrics meaningful to its Shareholder, customers, business partners and employees. The measures below allow the Mint to monitor its capacity to improve performance and create value for its Shareholder and for Canada.

		13 weeks ended

<sup>1</sup> Profit before income tax and other items is a non-GAAP financial measure. A reconciliation from profit for the period to profit before income tax and other items is included on page 11.

<sup>2</sup> Profit before tax and other items margin is a non-GAAP financial measure and its calculation is based on profit before income tax and other items

Profit for the 13 weeks ended March 30, 2024 was \$7.9 million lower than the same period in 2023 from the continued slow-down in global bullion demand that started in second half of 2023. These results were partially offset by higher foreign circulation coin volumes combined with a planned lower level of operating expenses to support the Mint's on-going operations and digital program and business transformation initiatives.

			As at	t

#### Revenue by program and business

	13 weeks ended									
	March	30, 2024	Apri	l 1, 2023	\$ Change	% Change				
Canadian Circulation	\$	19.1	\$	19.5	(0.4)	(2)

Total Precious Metals	\$	286.3	\$	747.7	(461.4)	(62)				
Total revenue	\$	314.7	\$	769.7	(455.0)	(59)				

The Mint takes an integrated approach to managing the Circulation and Precious Metals businesses. This approach allows the Mint to allocate resources within these businesses in order to respond to customer and market demands.

#### **Canadian Circulation**

During the 13 weeks ended March 30, 2024, revenues from the Canadian Circulation Program decreased 2% to \$19.1 million compared to \$19.5 million in the same period in 2023. The decrease is mainly due to a lower volume of metric tons processed from the Alloy Recovery Program due in part to the timing of settlements.

#### **Coin supply**

		13 weeks ende	ed	
(in millions of coins)	March 30, 2024	April 1, 2023	Change	% Change
Financial institutions deposits	426	440	(14)	(3)
Recycled coins	36	34	2	6
New coins sold to financial institutions and others	11	11	-	-
Total coin supply	473	485	(12)	(2)

Demand is met through the three main sources of supply outlined in the above table and is subject to variability across regions of the country and seasonality depending on the time of the year. In the first 13 weeks of 2024, demand decreased 2% compared to the same period in 2023.

ROYAL CANADIAN MINT – FIRST QUARTER REPORT 2024

13 weeks ended March 30, 2024 (Unaudited)

Financial institutions deposits are the primary coin supply channel that fulfills coin demand and are typically made up of coins from transit, parking, vending, etc. In the first 13 weeks of 2024, decreases in financial institution deposits were partially offset by an increase in coins from the recycling program.

#### **Department of Finance Inventory**

(in millions of dollars)	Marc	h 30, 2024	Ap	ril 1, 2023	\$ Change
Opening inventory	\$	90.0	\$	102.0	(12.0)

New coins sold to financial institutions and others		(2.5)		(2.6)	0.1
Ending inventory	\$	99.7	\$	105.5	(5.8)

The Mint actively manages inventory supply levels from financial institutions deposits, recycling kiosk volumes, and new coin production to ensure coinage demand is met efficiently and cost effectively throughout the year. The face value of the Department of Finance owned inventory at March 30, 2024 was \$99.7 million, which was within the inventory limit outlined in the Mint's memorandum of understanding with the Department of Finance

#### **Foreign Circulation**

Revenue from the Foreign Circulation business increased by almost three-fold for the 13 weeks ended March 30, 2024 to \$9.3 million compared to \$2.5 million in the same period in 2023. The increase in foreign circulation revenue reflects five-fold higher volumes produced and shipped year over year.

Net silver ounces	2,907.6	8,322.9	(5,415.3)	(65)

Bullion Products and Services net revenue for the 13 weeks ended March 30, 2024 decreased 65% compared to the same period in 2023. The decrease in revenue was mainly driven by lower gold and silver net bullion volumes sold, partially offset by the higher market price of gold and silver.

#### **Numismatics**

Numismatics revenue decreased 7% to \$34.7 million during the 13 weeks ended March 30, 2024 from \$37.3 million in the same period of 2023. The decrease in revenue was primarily due to high demand in Q1 2023 for the *Queen Elizabeth II's Reign* products.

#### Expenses, other income and income tax

Cost of sales for the 13 weeks ended March 30, 2024 decreased to \$278.1 million compared to \$721.3 million during the same period in 2023. The overall decrease in cost of sales was in line with the 59% decrease in overall revenue, excluding the \$2.1 million increase in the revaluation gain on the Face Value redemptions liability which is recognized in cost of sales.

Overall, operating expenses for the 13 weeks ended March 30, 2024 decreased 6% to \$30.6 million from \$32.4 million in the same period in 2023. Administration expenses decreased 7% mainly due to a decrease in consulting expenses supporting the digital program and business transformation, as well as the prudent containment of overall operating expenses.

Income tax expense decreased \$2.6 million compared to 2023 in line with the decrease in operating profit quarter over quarter.

# LIQUIDITY AND CAPITAL RESOURCES

#### **Cash flows**

	13 weeks ended							
	March 3	30, 2024	April	l 1, 2023	\$ Change			
Cash and cash equivalents, at the end of the period	\$	54.9	\$	109.4	(54.5)

Cash flow used in investing activities	\$	(6.2)	\$	(20.7)	14.5			
Cash flow used in financing activities	\$	(4.5)	\$	(0.4)	(4.1)			

Cash from operating activities for the 13 weeks ended March 30, 2024 decreased \$46.4 million compared to the same period in 2023 primarily due to lower net cash inflows from bullion sales and timing of cash receipts from customers and payments to suppliers.

ROYAL CANADIAN MINT – FIRST QUARTER REPORT 2024

13 weeks ended March 30, 2024 (Unaudited)

Cash used in investing activities decreased \$14.5 million for the 13 weeks ended March 30, 2024, as compared to the same period in 2023 mainly due to the purchase of a short-term investment in 2023.

Cash used in financing activities increased \$4.1 million for the 13 weeks ended March 30, 2024 as compared to the same period in 2023. The Corporation declared and paid a \$4.0 million dividend to the Government of Canada, which represented the cash balance over a predetermined cash reserve requirement, for the year ended December 31, 2023, defined in the Mint's Corporate Plan.

#### **Borrowing facilities**

See note 17 in the December 31, 2023 audited consolidated financial statements for details on the Mint's borrowing facilities. The Mint entered and closed the period with total outstanding long-term loans of \$18.1 million, which is within the Mint's approved borrowing limit as prescribed by the *Royal Canadian Mint Act*. The Mint entered and closed the period with a long-term debt-to-equity ratio of 1:09.

# **RECONCILIATION FROM PROFIT FOR THE PERIOD TO PROFIT BEFORE INCOME TAX AND OTHER ITEMS**

Profit before income tax and other items is a non-GAAP financial measure used by management and other stakeholders to compare the Mint's financial results before the impact of non-cash changes in valuations, taxes and other items. A reconciliation from profit for the period to profit before income tax and other items is as follows:

		13 weeks	ended	
	March	30, 2024	April 1, 2023	
Profit for the period	\$	4.6	\$	12.5
Add (deduct):				
Income tax expense		1.6		4.2
Shareholder directed donations		0.2		0.2
Net foreign exchange loss		0.3		0.2
Face Value revaluation (gain) loss <sup>1</sup>		(1.9)		0.2
Profit before income tax and other items	\$	4.8	\$	17.3

<sup>1</sup> Face Value revaluation is the non-cash impact of the change in the valuation of the precious metal component of the Face Value redemptions liability which excludes the impact of a foreign exchange gain of \$1.4 million (2023 - \$nil million loss).

# **RISKS TO PERFORMANCE**

Management considers risks and opportunities at all levels of decision making. The Mint's performance is influenced by many factors, including: economic conditions, financial and commodity market volatility, and competitive pressures. Also, as a Crown corporation governed under a legislative framework, the Mint's performance could be impacted by changes to Shareholder objectives or to the directions given by governing bodies. Under the guidance of the Board of Directors, the Mint's enterprise risk management process is undertaken by the Mint's Leadership Team. It focuses on the identification, assessment and management, within the risk appetite, of the key risks that could impact the achievement of the Mint's strategic objectives. As part of its oversight process, the Board of Directors approves risk appetite statements, reviews the Mint's strategic risk profile and has input into the broader risk management approach.

The Mint's enterprise risk management framework and practices are consistent with guidance issued by the Treasury Board and is subject to periodic review by its internal auditor. Guidance in relation to risk awareness and risk management is provided to staff where necessary. Appropriate risk management requirements are embedded in staff responsibilities.

A register of key strategic risks is maintained, together with a series of operational risk registers covering each of the Mint's business/support areas. These registers are updated regularly and evolve as new risks are identified and existing ones are mitigated.

The key corporate level risks that could materially impact the Mint's ability to achieve its corporate strategy objectives are identified in the Mint's 2023 Annual Report.

# CRITICAL ACCOUNTING ESTIMATES, ADOPTION OF NEW ACCOUNTING STANDARDS AND ACCOUNTING POLICY DEVELOPMENTS

See note 3 in the audited consolidated financial statements for the year ended December 31, 2023 for a discussion of critical accounting estimates, as well as note 3 in the accompanying unaudited condensed financial statements for the 13 weeks ended March 30, 2024 for a discussion regarding the adoption of new accounting standards and accounting policy developments.

13 weeks ended March 30, 2024 (Unaudited)

# OUTLOOK

The financial goal for 2024 is a profit before tax and other items of \$8.8 million, as approved in the Mint's 2024-2028 Corporate Plan. The Mint is also committed to meeting the required government spending reductions in its 2024 operating expenses as set out in its Corporate Plan.

Continuing in 2024 with the implementation of its One Mint Strategy which was approved in 2020, the Mint will continue to evolve its domestic circulation coin lifecycle management practices and will aim to seize the best foreign circulation opportunities. The Mint will continue to build its precious metals capacity, focus its numismatic offerings, and pursue operational efficiencies. The Mint is also making investments in its digital capabilities and ESG initiatives to continue to build its agility and resiliency as it continues to add value for Canada. The Mint is closely monitoring the impact of economic and geopolitical events around the globe, including the impact on its global supplier network, and identifies contingency plans when required in order to support the business.

#### **Circulation business**

#### Canadian circulation

The Mint anticipates coin demand and supply levels in 2024 to be similar to last year as ecosystem activities appear to have reached consistent levels.

Although digital payment choices are widely available and popular with consumers, a quarter of Canadians describe themselves as regular users of cash. Cash using consumers value the option of choosing how they pay, while for others, physical currency is a necessity in order to complete their trade and commerce transactions. In order to ensure coins are available to support these transactions, the ecosystem is steadily circulating coins at consistent levels across the country.

At an aggregate level coin activity may be comparable to last year, but geographical disparities in coin activity could emerge as various businesses and consumer preferences evolve region by region. The dynamic nature of the ecosystem makes it crucial for the Mint to keep a pulse on changing market requirements and to ensure the coin distribution system delivers the right mix of denominations across Canada in a timely and cost-effective manner.

13 weeks ended March 30, 2024 (Unaudited)

#### Foreign circulation

It is expected that over the next twelve months, tenders for approximately 3 billion coins and blanks will be released, of which the Mint expects 2 to 2.5 billion pieces to be addressable within its capabilities.

While cash demand in advanced economies has reached a relative plateau, demand in emerging economies remains consistent, as everyday trade and commerce is highly dependent on cash. Many economies are experiencing the impacts of inflation and/or currency devaluation, putting pressure on procurement budgets. Inflation has a two-pronged effect on coin demand: demand for lower-value coins is reduced as their spending power erodes, while demand for higher-value coin denominations and opportunities to convert banknotes to coins increase.

Many Central Banks are looking for cost-reduction initiatives in their currency programs, and the recent volatility in alloy prices strengthens the business case for plated alternatives. The Mint is focusing on new opportunities as excess supply continues to heighten competitive pressure on pricing in its traditional supply base.

Precious metals business

#### Bullion products and services

The Mint continues to monitor the slowdown in the Bullion market which started during the third quarter of 2023 and continues to review the pricing and mix of its bullion products as market conditions evolve. In the next twelve months, the Mint will continue to focus on its customer, market and distribution strategies, gold refining, gold products and selective storage opportunities in support of its market share, while carefully managing operating costs.

#### Numismatics

The Mint continues to prioritize being a customer-centric organization focused on enhancing the customer experience and improving the long-term performance of the Numismatics business. The Mint continues to implement and pursue product strategies intended to reach new customers in new and emerging markets.

# FORWARD LOOKING STATEMENTS

The unaudited condensed consolidated financial statements and the narrative, contain forwardlooking statements that reflect management's expectations regarding the Mint's objectives, plans, strategies, future growth, results of operations, performance and business prospects and opportunities. Forward-looking statements are typically identified by words or phrases such as "plans", "anticipates", "expects", "believes", "estimates", "intends", and other similar expressions. These forward-looking statements are not facts, but only assumptions regarding expected growth, results of operations, performance, business prospects and opportunities. While management considers these assumptions to be reasonable based on available information, they may prove to be incorrect. These assumptions are subject to a number of risks, uncertainties and other factors that could cause actual results to differ materially from what the Mint expects. These risks, uncertainties and other factors include, but are not limited to, those risks and uncertainties set forth above in the Risks to Performance in this narrative, as well as in Note 8 – Financial Instruments and Financial Risk Management to the Mint's unaudited condensed consolidated financial statements.

To the extent the Mint provides future-oriented financial information or a financial outlook, such as future growth and financial performance, the Mint is providing this information for the purpose of describing its expectations. Therefore, readers are cautioned that this information may not be appropriate for any other purpose. Furthermore, future-oriented financial information and financial outlooks, as with forward-looking information generally, are based on the assumptions and subject to the risks.

Readers are urged to consider these factors carefully when evaluating these forward-looking statements. In light of these assumptions and risks, the events predicted in these forward-looking statements may not occur. The Mint cannot assure that projected results or events will be achieved. Accordingly, readers are cautioned not to place undue reliance on the forward-looking statements.

The forward-looking statements included in the unaudited condensed consolidated financial statements and narrative are made only as of May 23, 2024, and the Mint does not undertake to publicly update these statements to reflect new information, future events or changes in circumstances or for any other reason after this date.

# 1. NATURE AND DESCRIPTION OF THE CORPORATION

The Royal Canadian Mint (the Mint or the Corporation) was incorporated in 1969 by the *Royal Canadian Mint Act* to mint coins and carry out other related activities. The Corporation is an agent corporation of His Majesty named in Part II of Schedule III to the *Financial Administration Act*. It produces all of the circulation coins used in Canada and manages the Canadian circulation coin life cycle for the Government of Canada.

In 2015, the Corporation was issued a directive (P.C. 2015-1107) pursuant to section 89 of the *Financial Administration Act* to align its travel, hospitality, conference and event expenditure policies, guidelines and practices with Treasury Board policies, directives and related instruments in a manner that is consistent with its legal obligations. The directive also requires the Corporation to report on the implementation of this directive in its Corporate Plan. The Corporation has complied with this directive.

The Corporation produces coins for Canadian trade and commerce, manages the country's coin system for optimum efficiency and cost, and is a world-renowned manufacturer of precious metals investment products and collectibles. It is also one of the largest gold refiners in the world. The addresses of its registered office and principal place of business are 320 Sussex Drive, Ottawa, Ontario, Canada, K1A 0G8 and 520 Lagimodière Blvd, Winnipeg, Manitoba, Canada, R2J 3E7.

The Corporation is a prescribed federal Crown corporation for income tax purposes and is subject to federal income taxes under the *Income Tax Act*.

While not subject to United States of America federal income taxes, the Corporation is subject in some states to state income taxes.

# 2. BASIS OF PRESENTATION

#### 2.1 Statement of Compliance

These condensed consolidated financial statements were prepared in accordance with *IAS 34 Interim Financial Reporting ("IAS 34")* of the *International Financial Reporting Standards ("IFRS")* and the *Directive on Accounting Standards: GC 5200 Crown Corporations Quarterly Financial Reports* issued by the Treasury Board of Canada. As permitted under these standards, these condensed consolidated financial statements do not include all of the disclosure requirements for annual consolidated financial statements, and should be read in conjunction with the Corporation's audited consolidated financial statements for its fiscal year ended December 31, 2023. These condensed consolidated financial statements have not been audited or reviewed by an external auditor.

# 2.2 Basis of presentation

These condensed consolidated financial statements were prepared in accordance with IFRS.

Although the Corporation's year end of December 31 matches the calendar year end, the Corporation's quarter end dates do not necessarily coincide with calendar year quarters; instead, each of the Corporation's quarters contains 13 weeks.

These condensed consolidated financial statements were approved for public release by the Board of Directors of the Corporation on May 23, 2024.

# 2.3 Consolidation

These condensed consolidated financial statements incorporate the financial statements of the Corporation and its wholly-owned subsidiary RCMH-MRCF Inc. which has been operationally inactive since December 31, 2008. All intercompany transactions, balances, income and expenses are eliminated in full upon consolidation.

# 2.4 Foreign currency translation

Unless otherwise stated, all figures reported in these condensed consolidated financial statements and disclosures are reflected in thousands of Canadian dollars (CAD), which is the functional and presentation currency of the Corporation.

# 3. KEY SOURCES OF ESTIMATION UNCERTAINTY AND CRITICAL JUDGEMENTS

The preparation of these condensed consolidated financial statements requires management to make critical judgements, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities and the reported amounts of revenue and expenses during the reporting period.

Actual results may differ significantly from the estimates and assumptions. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

ROYAL CANADIAN MINT – FIRST QUARTER REPORT 2024

Significant judgements and estimates as at March 30, 2024 were consistent with those disclosed in Note 3 of the Corporation's audited consolidated financial statements for the year ended December 31, 2023.

# 4. APPLICATION OF NEW AND REVISED IFRS PRONOUNCEMENTS

# 4.1 New and revised IFRS pronouncements affecting amounts reported and/or disclosed in the consolidated financial statements for the year ended December 31, 2024.

The Corporation reviewed the new and revised accounting pronouncements that were issued and had mandatory effective dates of annual periods beginning on or after January 1, 2024. The following amendments were adopted by the Corporation on January 1, 2024 and did not have an impact on the consolidated financial statements.

# Supplier Finance Arrangements

In May 2023, the IASB issued amendments to IAS 7 – *Statement of Cash Flows* and IFRS 7 – *Financial Instruments: Disclosures*. The amendments add disclosure requirements, and 'signposts' within existing disclosure requirements, that ask entities to provide qualitative and quantitative information about supplier finance arrangements. These amendments are effective for annual periods beginning on or after January 1, 2024.

#### Classification of Liabilities as Current or Non-Current

In October 2022, the IASB issued amendments to IAS 1 Presentation of Financial Statements titled *Non-current liabilities with Covenants*. The amendments clarify that only covenants with which an entity is required to comply on or before the reporting date affect the classification of a liability as current or non-current. In addition, an entity has to disclose information in the notes that enables users of financial statements to understand the risk that non-current liabilities with covenants could become payable within twelve months. These amendments override but incorporate the previous amendments, *Classification of liabilities as current or non-current*, issued in January 2020, which clarified that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Liabilities should be classified as non-current if a company has a substantive right to defer settlement for at least 12 months at the end of the reporting period. The amendments are effective for annual periods beginning on or after January 1, 2024.

#### Sale and Liability in a Sale and Leaseback

In September 2022, the IASB issued amendments to IFRS 16 – *Leases*. The amendments require a seller-lessee to subsequently measure lease liabilities arising from a leaseback in a way that it does not recognize any amount of the gain or loss that relates to the right of use it retains. The amendments are effective for annual periods beginning on or after January 1, 2024.

# 4.2 New and revised IFRS pronouncements issued, but not yet effective

The Corporation reviewed the revised accounting pronouncements that have been issued, but are not yet effective.

# Lack of Exchangeability

In August 2023, the IASB issued amendments to IAS 21 – *The Effects of Changes in Foreign Exchange Rates*. The amendments contain guidance to specify when a currency is not exchangeable, how to determine the exchange rate and to require disclosure of information that would enable users of its financial statements to evaluate how a currency's lack of exchangeability affects, or is expected to affect, its financial performance, financial position and cash flows. These amendments are effective for annual periods beginning on or after January 1, 2025. The Corporation does not anticipate the adoption of these amendments to significantly impact the consolidated financial statements.

#### Primary Financial Statements

In April 2024, the IASB issued IFRS 18 – *Presentation and Disclosure in Financial Statements* to replace IAS 1 - *Presentation of Financial Statements*. IFRS 18 improves the reporting of financial performance though the addition of detailed requirements for subtotals in the statement of profit and loss, disclosures about management-defined performance measures and adding new principles for the aggregation and disaggregation of information. These amendments have an effective date for annual periods beginning on or after January 1, 2027. The Corporation is currently assessing the potential impact from the adoption of these amendments on its consolidated financial statements.

# 5. TRADE RECEIVABLES, NET AND OTHER RECEIVABLES

		As	at	
	r	March 30, 2024	Decem	ber 31, 2023

#### 6. INVENTORIES

		As at				
	Marc	h 30, 2024	December 31, 2023			
Total inventories	\$	69,514	\$	68,825		

The Corporation recognized write-downs of inventory to net realizable value of \$0.2 million for the 13 weeks ended March 30, 2024 (13 weeks ended April 1, 2023 - \$0.7 million).

#### 7. CONTRACT ASSETS AND CONTRACT LIABILITIES

The contract assets are related to the Corporation's rights to consideration for work completed, but not billed as at March 30, 2024. The Corporation reviewed its credit risk exposure related to contract assets as at March 30, 2024 and evaluated the risk to be minimal as each contract is subject to a contract specific risk assessment process. The contract liabilities are related to the consideration received in advance from customers for which revenue has not yet been recognized, as well as amounts relating to customer loyalty programs.

#### Significant changes in the contract asset and liability balances were as follows:

#### 8. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

#### 8.1 Capital risk management

The Corporation may borrow money from the Consolidated Revenue Fund or any other source, subject to the approval of the Minister of Finance with respect to the time and term and conditions. Since March 1999, following the enactment of changes to the *Royal Canadian Mint Act*, the total aggregate borrowings by the Corporation and outstanding at any time shall not exceed \$75 million. For the 13 weeks ended March 30, 2024 and year ended December 31, 2023, approved short-term borrowings for working capital needs within this limit were not to exceed \$25 million or the US dollar equivalent. From time to time, the Corporation may seek approval for new long-term borrowings. As at March 30, 2024 and December 31, 2023, the Corporation had no approvals for any new long-term borrowings for those ending fiscal periods. The Corporation's long-term

ROYAL CANADIAN MINT - FIRST QUARTER REPORT 2024

Page 26 of 45

borrowings are described in note 17 of its audited consolidated financial statements for the year ended December 31, 2023.

To support such short-term borrowings, as may be required from time to time, the Corporation has various commercial borrowing lines of credit, made available to it by Canadian financial institutions. These lines are unsecured and provide for borrowings up to 364 days in term based on negotiated rates. No amounts were borrowed under these lines of credit as at March 30, 2024 or December 31, 2023.

The Corporation declared and paid a dividend of \$4.0 million, related to the year ended December 31, 2023, to the Government of Canada in the 13 weeks ended March 30, 2024 (13 weeks ended April 1, 2023 – nil). The Corporation employs a dividend framework to calculate dividends payable to its Shareholder. The calculated dividend amount represents projected excess year end cash over a pre-determined cash reserve requirement and is generally paid in the fourth quarter of each year.

# 8.2 Classification and fair value measurements of financial instruments

#### 8.2.1 Carrying amount and fair value of financial instruments

The carrying amount and fair value of the Corporation's financial assets and financial liabilities are presented in the following table:

	As at							
		March 30	, 2024	l I	December 31, 2023

# 8.2.2 Fair value hierarchy

Financial instruments, other than those that are not subsequently measured at fair value and for which fair value approximates carrying value, whether or not they are carried at fair value in the condensed consolidated statement of financial position, must be disclosed at their fair value and be classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value measurement of cash was classified as level 1 of the fair value hierarchy as at March 30, 2024 and December 31, 2023. The fair value measurements of all other financial instruments held by the Corporation were classified as level 2 of the fair value hierarchy as at March 30, 2024 and December 31, 2023. There were no transfers of financial instruments between levels for the 13 weeks ended March 30, 2024.

# 8.2.3 Classification and fair value techniques of financial instruments

The Corporation holds financial instruments in the form of cash, trade receivables, net and other receivables, derivative assets, trade payables, other payables and accrued liabilities, loan payable and derivative liabilities.

The Corporation estimated the fair values of its financial instruments as follows:

- i) The carrying amounts of cash, trade receivables, net and other receivables and trade payables, other payables and accrued liabilities approximate their fair values as a result of the relatively short-term nature of these financial instruments.
- ii) The fair value of the loan payable is estimated based on a discounted cash flow approach using current market rates.

iii) The fair values of the Corporation's foreign currency forward contracts are based on estimated credit-adjusted forward market prices. The Corporation takes counterparty credit risk and its own credit risk into consideration for the fair value of financial instruments.

The table below details the types of derivative financial instruments carried at fair value:

	As at					
	Marc	March 30, 2024		31, 2023		
Derivative financial assets						
Foreign currency forwards	\$	21	\$	2,764		
	\$	21	\$	2,764		
Derivative financial liabilities						
Foreign currency forwards	\$	537	\$	6		
	\$	537	\$	6		

# 8.3 Financial risk management objectives and framework

The Corporation is exposed to credit risk, liquidity risk and market risk from its use of financial instruments.

The Board of Directors has overall accountability for the establishment and oversight of the Corporation's financial risk management framework. The Audit Committee is mandated by the Board of Directors and is responsible for the review, approval and monitoring of the Corporation's financial risk management policies. The Audit Committee reports regularly to the Board of Directors on its activities.

# 8.3.1 Credit risk management

Credit risk is the risk of financial loss to the Corporation if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Corporation's receivables from customers, cash and derivative instruments. The Corporation has a defined know your client and credit assessment process that evaluates the creditworthiness of counterparties as a means of mitigating the risk of financial loss from defaults. The Corporation's exposure and the credit ratings of its counterparties are continuously monitored.

The carrying amount of financial assets recorded in the condensed consolidated financial statements represents the Corporation's maximum credit exposure.

# 8.3.1.1 Credit risk management of receivables from customers

The Corporation's exposure to credit risk associated with financial trade receivables, net and other financial receivables is influenced mainly by the individual characteristics of each customer, however the Corporation also considers the demographics of its customer base, including the risk associated with the type of customer and country in which the customer operates.

The Corporation manages this risk by monitoring the credit worthiness of customers and obtaining prepayment or other forms of payment security from customers with a high level of credit risk. The Corporation has established processes over contracting with foreign customers in order to manage the risk relating to these customers. The Corporation's management reviews the detailed trade receivable listing on a regular basis for changes in the factors that impact a customer's ability to pay outstanding receivable balances, including changes in a customer business and the overall economy. An allowance for expected credit losses (ECL) is provided for customer accounts that could present collectability issues.

The Corporation's maximum exposure to credit risk for financial trade receivables, net and other financial receivables by geographic regions was as follows:

		As at					
	March	30, 2024	Decembe	er 31, 2023			
Canada	\$	9,953	\$	14,927			
United States		1,867		1,092

Europe, Middle East and Africa		799		388			
Asia and Oceania		3		13			
Total financial trade receivables, net and other financial receivables	\$	14,096	\$	16,770			

The maximum exposure to credit risk for financial trade receivables, net and other financial receivables by type of customer was as follows:

	As at					
	March	30, 2024	December	31, 2023		
Consumers, dealers and others	\$	8,949	\$	9,710		
Governments (including governmental departments and agencies)		2,983		5,819		
Central and institutional banks		2,164		1,241		
Total financial trade receivables, net and other financial receivable	s \$	14,096	\$	16,770		

The Corporation established an allowance for ECLs based on a provision matrix that reflected the estimated impairment of financial trade receivables, net and other financial receivables at the end

ROYAL CANADIAN MINT - FIRST QUARTER REPORT 2024

of the reporting period. The provision matrix was based on historical observed default rates and was adjusted for forward-looking estimates. The Corporation sets different payment terms depending on the customer and product, and excluding prepayments, the Corporation's standard payment terms are generally 30 days. As at March 30, 2024, the Corporation's rate of credit losses was less than 1% (2023 – less than 1%) of total financial trade receivables, net and other financial receivables.

# 8.3.2 Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they fall due. The Corporation manages liquidity risk by continuously monitoring actual and forecasted cash flows to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Corporation's reputation.

# 8.3.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates or commodity price changes will affect the Corporation's income or the fair value of its financial instruments.

The Corporation uses, from time to time, derivative instruments, such as foreign currency forward contracts, interest rate exchange agreements and commodity swap and forward contracts to manage its exposure to fluctuations in cash flows resulting from foreign exchange risk, interest rate risk and commodity price risk. The Corporation buys and sells derivatives in the ordinary course of business and all such transactions are carried out within the guidelines set out in established policies. In accordance with the Corporation's policies, derivative instruments are not used for trading or speculative purposes.

# 8.3.3.1 Foreign exchange risk

The Corporation is exposed to foreign exchange risk on sales and purchase transactions and short-term cash management requirements that are denominated in foreign currencies, primarily in US dollars. The Corporation manages its exposure to exchange rate fluctuations between the foreign currency and the Canadian dollar by entering into foreign currency forward contracts within the guidelines set out in established policies. The Corporation also uses such contracts in managing its overall cash requirements.

# 8.3.3.2 Interest rate risk

Financial assets and financial liabilities with variable interest rates expose the Corporation to cash flow interest rate risk. As at March 30, 2024, there was no variable interest rate exposure.

Financial assets and financial liabilities that bear interest at fixed rates are subject to fair value interest rate risk. The Corporation's cash and loan payable expose the Corporation to fair value interest rate risk.

# 8.3.3.3 Commodity price risk

The Corporation is exposed to commodity price risk on its purchase and sale of precious metals including gold, silver, platinum and palladium and base metals including nickel, copper and steel.

The Corporation is not exposed to precious metal price risk related to its bullion sales program because the purchase and sale of precious metals used in this program are completed on the same date, using the same price basis in the same currency. For numismatic sales, the Corporation enters into fixed-price purchase commitments for precious and base metals to mitigate the commodity price risk (Note 20.1).

Contracts and transactions that are entered into for the purpose of procuring commodities to be used in production are classified as normal course of business. The Corporation does not procure commodities for trading or speculative purposes.

The impact of commodity price risk fluctuation on the condensed consolidated financial statements is not significant because none of the Corporation's financial assets or liabilities are directly exposed to commodity price risks.

#### 9. PROPERTY, PLANT AND EQUIPMENT

The composition of the net book value of the Corporation's property, plant and equipment, is presented in the following tables:

Precious metal and foreign exchange revaluation	(3,336)	1,809
Closing balance	\$ 113,727	\$ 117,182

As at March 30, 2024 the Corporation determined that it continues to be unable to reliably estimate the redemptions of Face Value coins.

ROYAL CANADIAN MINT - FIRST QUARTER REPORT 2024

The Face Value redemptions liability represents the expected cash outflows if all Face Value coins are redeemed, including the costs of redemptions offset by the precious metal content that will be reclaimed by the Corporation when the coins are redeemed. The precious metal recovery component of the liability is based on the market value of silver as at the end of each reporting period. The impact of the revaluation of the precious metal component of the liability was a decrease of \$3.3 million for the 13 weeks ended March 30, 2024 (13 weeks ended April 1, 2023 – increase of \$0.2 million). Based on the Face Value redemptions liability as at March 30, 2024, and assuming that all other variables remain constant, a hypothetical 10% appreciation in the market value of silver in Canadian dollars would increase profit for the year by \$6.2 million (April 1, 2023 - \$6.1 million). A hypothetical 10% weakening in the market value of silver in Canadian dollars would have the equal, but opposite effect.

The current portion of the Face Value redemptions liability is based on the redemptions for the last 12 months, as the Corporation determined that it continues to be unlikely that all outstanding Face Value coins will be redeemed in the next 12 months as Face Value coins are widely held and the redemption process takes time to complete.

The Corporation continues to monitor the redemption levels of Face Value coins to ensure requisite funding for future redemptions is maintained.

# 14. EMPLOYEE COMPENSATION AND BENEFITS

# **Pension benefits**

Substantially all of the employees of the Corporation are covered by the Public Service Pension plan, a contributory defined benefit plan established through legislation and sponsored by the Government of Canada. The Corporation made total contributions of \$2.3 million in the 13 weeks ended March 30, 2024 (13 weeks ended April 1, 2023 - \$2.7 million).

See Note 18 in the audited consolidated financial statements for the year ended December 31, 2023 for details of the Corporation's pension and other post-employment benefit plans, including the sensitivity analysis of the impact of changes in the discount rate on the employee benefit liabilities.

#### 15. REVENUE

#### 15.1 Revenue by performance obligation

Total revenue	\$ 314,664	\$	769,692

Revenue from the sale of goods is presented net of cost of sales in cases where the Corporation is not the principal in the transaction ("Customer inventory deals"). The following is a reconciliation of the gross revenue from the sale of goods and the net revenue presented:

	13 weeks ended				
	М	arch 30, 2024		April 1, 2023	
Gross revenue from the sale of goods	\$	700,279	\$	1,257,404

Net revenue from the sale of goods	\$	275,228	\$	732,631	

#### 15.2 Disaggregation of Revenue

The following table shows revenue disaggregated by primary geographical region and program or business:

	13 weeks ended					
Primary Geographic Regions	Ма	rch 30, 2024		April 1, 2023		
North America	\$	235,376	\$	657,655

Total Precious Metals	286,24	6	747,692				
Total revenue	\$ 314,66	\$	769,692				

For the 13 weeks ended March 30, 2024 two (13 weeks ended April 1, 2023 – two) customers each made up 10% or more of the Corporation's revenue.

The revenue earned from significant customers was reported in the Precious Metals business for the 13 weeks ended March 30, 2024 and April 1, 2023, and in the primary geographic regions of North America and Europe, Middle East and Africa for the 13 weeks ended March 30, 2024 (North America - April 1, 2023).

#### 15.3 Transaction price allocated to the remaining performance obligations

The following table includes revenue expected to be recognized in the future related to performance obligations that were unsatisfied, or partially unsatisfied, as at March 30, 2024:

	2024	2025	2026	Total
Total revenue	\$ 93,141	\$ 60,431	\$ -	\$ 153,572

The Corporation has other contracts with terms longer than 12 months that include unsatisfied performance obligations that are dependent on volumes. These contracts, as well as any volume dependent components in other contracts, are excluded from the table above as the Corporation cannot reliably measure the unsatisfied performance obligations. Under these contracts, customers have the option to increase or decrease the volume over the terms of their respective contracts and therefore, the unsatisfied performance obligation, would be impacted by this decision.

# **19. RELATED PARTY TRANSACTIONS**

The Corporation is related in terms of common ownership to all Government of Canada owned entities. The Corporation enters into transactions with these entities in the normal course of business, under the same terms and conditions that apply to unrelated parties. In accordance with the disclosure exemption regarding "government related entities", the Corporation is exempt from certain disclosure requirements of *IAS 24 – Related Party Disclosures* relating to its transactions and outstanding balances with:

- a government that has control, joint control or significant influence over the reporting entity; and
- another entity that is a related party because the same government has control, joint control or significant influence over both the reporting entity and the other entity.

Transactions with related parties that are considered to be individually or collectively significant, include transactions with the Government of Canada, and departments thereof and all federal Crown corporations.

The majority of transactions with the Government of Canada were with the Department of Finance related to the production, management and delivery of Canadian circulation coins which are governed by the terms outlined in the memorandum of understanding which is effective from January 1, 2022 to December 31, 2025.

#### The transactions with Department of Finance were as follows:

	13 weeks ended				
	Marc	h 30, 2024	Ap	oril 1, 2023	
Revenue	\$	18,789	\$	18,401

Contract liabilities (Note 7)	\$	251	\$	-	

During the 13 weeks ended March 30, 2024 and April 1, 2023, the majority of transactions with Crown corporations were for the sale of numismatic products.

#### 20. COMMITMENTS, CONTINGENCIES AND GUARANTEES

#### 20.1 Precious metal and other commitments

In order to facilitate the production of precious metal coins and manage the risks associated with changes in metal prices, the Corporation may enter into firm fixed-price purchase commitments, as well as precious metal leases and supply arrangements for precious metal bullion products. As at March 30, 2024, the Corporation had \$24.4 million in outstanding firm fixed-price precious metal purchase commitments and firm commitments for precious metal bullion product supply arrangements, including sourcing costs (December 31, 2023 – \$28.2 million).

At the end of the period, the Corporation had entered into precious metal leases as follows:

	As at			
Ounces	March 30, 2024	December 31, 2023		
Gold	522,872	578,397		
Silver	19,801,950	22,492,819		
Platinum	26,003	29,203		

The fees for these leases are based on the market value. Precious metal lease payments of \$1.9 million for the 13 weeks ended March 30, 2024 were recognized through cost of sales (April 1, 2023 - \$4.3 million). The value of the metals under these leases is not reflected in the Corporation's condensed consolidated financial statements as stated in note 3.2.5 of the audited consolidated financial statements for the year ended December 31, 2023.

	2024	2025	2026	2027	2028	Total
Other commitments	\$ 41,008	\$ 8,029	\$ 2,595	\$ 273	\$ 32	\$ 51,937
Base metal commitments	2,775	-	-	-	-	2,775
Capital commitments	8,662	-	-	-	-	8,662
Total	\$ 52,445	\$ 8,029	\$ 2,595	\$ 273	\$ 32	\$ 63,374

As at March 30, 2024, the total estimated minimum remaining future commitments were as follows:

Other commitments include firm contracts with suppliers for goods and services, excluding precious metals commitments, as well as the non-lease components of leases of right-of-use assets.

Base metal commitments are firm fixed-price purchase commitments that are entered into in order to facilitate the production of circulation and non-circulation coins for Canada and other countries, and to manage the risks associated with changes in metal prices.

The Corporation committed to spend approximately \$8.7 million as at March 30, 2024 (December 31, 2023 - \$9.9 million) in 2024 on capital projects.

# 20.2 Trade finance bonds, bank guarantees and contingencies

The Corporation has various outstanding bank guarantees and trade finance bonds associated with the production of foreign circulation coin contracts. These were issued in the normal course of business. The guarantees and bonds are delivered under standby facilities available to the Corporation through various financial institutions. Performance guarantees have remaining terms of between twelve to nineteen months depending on the applicable contract, while warranty guarantees have remaining terms of up to seven months. Bid bonds have remaining terms of up to six months, depending on the length of the bid period for the applicable contract. The various contracts to which these guarantees or bid bonds apply generally have terms ranging from one to two years. An advance payment guarantee has a remaining term of twelve months. Any potential payments that might become due under these commitments would relate to the Corporation's non-performance under the applicable contract. The Corporation does not anticipate any material payments will be required in the future. As at March 30, 2024, under the guarantees and bid bonds, the maximum potential amount of future payments is \$5.1 million (December 31, 2023 - \$5.8 million).

In addition, from time to time, there are various legal claims against the Corporation. Claims that are uncertain in terms of the outcome or potential outflow or that are not measurable are considered to be a contingency and are not recorded in the Corporation's condensed consolidated

ROYAL CANADIAN MINT - FIRST QUARTER REPORT 2024

Page 44 of 45

financial statements. There was no provision for potential legal obligations as at March 30, 2024 and December 31, 2023.

Other than the changes noted above, there have been no other material changes to the Corporation's commitments, contingencies and guarantees since December 31, 2023.
