Coin Story:

The Krugerrand series celebrates the 50th anniversary in 2017 with the 1 oz silver Krugerrand coin placed in a 2 oz coin bar of .999 pure silver. The Krugerrands have always held a special place in the precious metals market, enjoying mass popularity for over 50 years.”

The design of the coin is beautifully repeated on the coin bar and makes this set even more desirable. Krugerrands feature a simple yet classic design depicting two key figures in South African history. On the obverse, the Silver Krugerrand feature four-term South African President Paul Kruger, who served from 1883 until he fled to Europe in 1900. On the reverse, this coin features South Africa’s national animal, the springbok antelope, which is hunted as game throughout South Africa.
